

The Scientific Method

Graphic Organizer
Use with
ANY Experiment!

HOW TO USE THIS RESOURCE:

Hi Teacher!

I hope you find this organizer to be student-friendly and easy to use for students in grades 3-6. I created this resource to naturally guide students through the scientific process. This organizer can be used in:

- whole class experiments
- small group work
- individual learning
- science projects at home

I would love to hear how you use this in your class! Find me on Instagram [@eliselovestoteach](#)

Happy Teaching!

The Scientific Method

Name: _____

Question

(What are you trying to figure out?)

Hypothesis

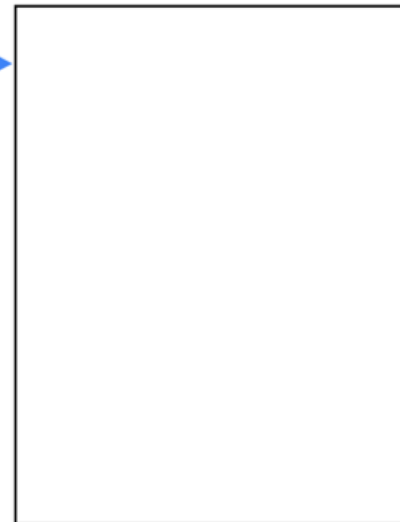

(What do you think will happen?)

Procedure

(What did you do?)

Observations

(What Happened?)

Conclusion

(Was your hypothesis correct? What did you learn? What will you do differently next time?)
